

Librarian

A librarian works at a library. People ask a librarian about books to read. Librarians help people and students. A librarian uses the computer to locate material. Locate means to find things. Librarians locate books, magazines, newspapers, and videos. These things are called materials.

librarian

A librarian places books on the shelf. They sometimes call other librarians on the telephone. People use a library card to borrow material from the library. Borrow means to use and then bring back. A librarian gives someone a receipt to tell them when their books need to be returned.
